

Timber Virtual Maze

Use this sheet with Bill's virtual maze for Timber 2020 that you will find at

www.billpiper.co.uk/maze/

You will start at (1,1) and in each cell you can choose to move North↑, South↓, East→ or West←.

There are barriers that will stop you moving in some directions. Hidden in the maze are the letters T I M B E and R. You need to find all the letters and then get to the way out. It will help you to draw your route onto this diagram and to mark any barriers and letters that you discover.

Each move that you try to make will be counted.

Once you have been successful, you can use your map and try again, this time trying to take fewer moves. What is the smallest number of moves you can do it in? Aim for under 50! Good luck!
